ECOMMERCE SOLUTIONS

SINGLE SOURCE FOR COMPREHENSIVE ECOMMERCE FOR DIGITAL AND PHYSICAL GOODS FROM ANY DEVICE, ANYTIME.

GHH Commerce provides the next-generation Cloud Commerce solutions with a comprehensive, end-to-end, B2B commerce platform, which bookends both physical and digital consumer goods. Our platform has been developed using the newest technology, allowing for improved performance, scalability, and features possible only on our cloud-based eCommerce platform.

GHH Commerce's full-service turnkey solution, built on hybris™, saves you millions of dollars in development and licensing costs, plus you'll be in the market in a matter of weeks, not years. Our focus is to provide you the best in technology and services, so you can focus on your core business - sales.

WEB 3.0

GHH Commerce solutions are built from a completely new platform, not a modified legacy systems. Our state-of-the-art technology is developed to be Web 3.0 friendly and is designed to perform reliably with all social and mobile media platforms. We have the most modern reporting and merchandising tools, designed to be easy to use, plus we provide you with extensive training and support.

DIGITAL CATALOG

GHH Commerce offers a fully-licensed digital catalog, which saves you the time and expense of licensing and loading millions of titles and channels. We have over 100 million SKUs and adding more all the time! You can easily customize the product selection through built in filters. Our catalog includes audio books, software, radio, music, movies, games, IPTV, eBooks and eZines.

SECURE

MULTI-TENANT PLATFORM

Your user data belongs to you, not the provider, like our competitors. With GHH Commerce, your data is kept separate and secure – not placed in a shared database with your competitors with the same SSL for checkout.

UNIFIED SHOPPING CART

A key differentiator of GHH Commerce's Cloud Commerce platform is its first-in-class unified shopping cart and full set of digital tools for preview to purchase and cross merchandising, allowing your consumers to purchase digital and physical goods through the same shopping cart. In addition, the shopping cart will process rentals, auctions and subscriptions. Our solution is truly global, supporting languages and currencies from around the world. Your consumers can get the physical and digital products they want from one source, increasing your sales.

COMPLETE CUSTOMIZATION

You've worked hard to develop your unique brand and your eCommerce solution needs to reflect the identity you've built. GHH Commerce's platform is completely white-labeled and built specific to your brand guidelines and system requirements. This is not a "powered-by" or template adaptation – this is a completely custom solution built to meet your needs.

DEVICE AGNOSTIC

Imagine an eCommerce solution that functions properly on all internet-connected devices regardless of make, model, operating system or service provider. Your consumers can shop where and when they want, regardless of how they are connected to the internet.
